Village of Lake in the Hills Enhances Sunset Park with “Save Station” AED Installation

Lake in the Hills, IL - The Village of Lake in the Hills is proud to announce the dedication of its first “Save Station”, a publicly accessible unit housing an Automated External Defibrillator (AED) available 24/7 for use in cardiac emergencies.

The AED was generously donated by Andrew’s Assist, a Huntley-based 501(c)(3) nonprofit organization dedicated to expanding access to lifesaving AEDs. A ribbon-cutting ceremony will take place at 2:00 p.m. on Wednesday, October 29, 2025, at Sunset Park, 5200 Miller Road, Lake in the Hills. Attendees will have the opportunity to meet representatives from Andrew’s Assist as well as local municipal personnel.

“Sunset Park will benefit from the addition of an AED unit that can be deployed in an emergency,” said Parks & Recreation Director Randy Splitt. “The central location of the unit, and proximity to the park’s many sports amenities, make the device easily visible and quickly accessible to park visitors.”

The Village invites residents, community partners, and members of the media to join in celebrating the dedication of this life-saving addition to Sunset Park.
