SUBJECT: Ordinance Amending Chapter 33, Section 33.08B “Number of Licenses Issued” of the Municipal Code

EXECUTIVE SUMMARY

Currently Chapter 33, Section 33.08B “Number of Licenses Issued”, specific to Class B and Class D Liquor Licenses allowed, does not coincide with the number of businesses that actually have these Class Liquor Licenses.

In 2018, Rock N Grill did not renew their Class D liquor license and in 2019, Cigarette Depot, who held a Class B Liquor License, changed owners. The new owner did not request the issuance of a liquor license. Chapter 33, Section 33.08B was not subsequently updated to reflect these changes.

The Attached ordinance reduces the Class B Liquor Licenses allowed by Village Code from eleven to ten and the Class D Liquor Licenses allowed with the Village from four to three in order to ensure consistency in the liquor license application and approval processes.

REQUEST FOR BOARD ACTION

MEETING DATE: February 25, 2020
DEPARTMENT: Public Works
SUBJECT: Award a Contract for the Well 10 Generator Replacement Project

EXECUTIVE SUMMARY

As part of the Village’s generator replacement schedule, the generator at Well 10 was approved in the 2020 budget for replacement. Village staff authored a Request For Proposal (RFP) and in January, the RFP invitation was sent to 16 generator companies, posted on the Village’s website, and published in the Northwest Herald. On February 7, 2020, four RFP submittals were received and pricing ranged from a low price of $47,043.00 from Midwest Power Industry Inc. (“Midwest”) of Ringwood, IL, to a high price of $60,000.00.

The Village has not worked with Midwest before; however, Midwest provided positive references for similar projects and staff is confident they are qualified to perform this work. The capital asset form, RFP results, a recommendation letter, and a bid certification form are attached for your review.

Village staff recommends that the Village Board approve and award the Well 10 Generator Replacement Project to Midwest Power Industry Inc. in the amount of $47,043.00.

FINANCIAL IMPACT

The Village’s 2020 budget includes $75,000.00 in the Water Fund for this project. The contract award amount of $47,043.00 is under budget by $27,957.00.

CAPITAL ASSET REQUEST FORM

FUND: Water O&M
DEPARTMENT: Public Works

NAME OF ASSET OR PROJECT TITLE:
Well 10 Generator Replacement

TOTAL EXPECTED COST:
$75,000

DESCRIPTION:
Well 10 Generator Replacement

CATEGORY:
- Mandate
- Rehabilitation or Asset Management
- Operational Improvement
- New Initiative

CRITERIA:
1: The Well 10 generator is original to the building and has provided the facility and Village water system many years of dependable back-up power during outages. Due to its age, parts for this generator are no longer available. It is no longer a reliable piece of equipment and it must be replaced.

2: The Well 10 generator has reached the end of its usable life and must be replaced in order to provide back-up power to this water producing facility and will do so for the next 25 years.

3: The Village has six production facilities within the high pressure zone of the water system, one of which is Well 10. This facility is one of 5 facilities in the zone with a backup generator. Not replacing this equipment will increase the likelihood that the Village will not be able to produce enough water to keep up with demand during power outages.
The RFP opening for the Well 10 Generator Replacement Project was held at the Public Works Facility on February 7th, 2020 at 10:00 a.m. Scott Parchutz, Tyler Eckman, Stephanie Raupp, and Peter D’Agostino from the Village of Lake in the Hills were present at the RFP opening. Also present were Gizena Sullivan with Mag Construction, Theresa Maloney with Newcastle Electric, Coty Kruckenberg with Associated Electrical, and Tom Fischbach with Midwest Power Industry. The Village received RFP submittals from the following companies:

The RFP opening concluded at 10:05 a.m. The RFP submittals will be reviewed and Village staff plan to make a recommendation to the Village Board at the February 25th, 2020 Committee of the Whole Meeting.

REQUEST FOR BOARD ACTION

MEETING DATE: February 25, 2020
DEPARTMENT: Public Works
SUBJECT: Recommendation to Award the 2020 Parking Lot Replacements Project

EXECUTIVE SUMMARY

As part of the Village’s parking lot replacement schedule, an existing section of airport pavement and the existing parking lots at Ken Carpenter Park, Richard Taylor Park and LaBuy Park were approved in the 2020 budget for replacement. Last month Village staff authored a Request For Proposal (RFP) for the replacement of these four locations and included one additional section of airport pavement (“Location Five”) in case the Village received favorable pricing for the Airport portion of this project. On January 22, 2020, an RFP invitation was sent to 57 resurfacing companies, posted on the Village’s website, and published in the Northwest Herald. On February 10, 2020, ten RFP submittals were received and pricing ranged from a low of $124,000.00 from Champion Paving Corporation (“Champion”) of Hampshire, IL, to a high of $221,350.00. Champion’s price of $124,000.00 is under budget for each of the first four locations but is not favorable enough for the airport to hire Champion to perform Location Five. As such, Village staff recommend awarding to Champion for the first four locations in the amount of $115,800.00. It should be noted that after removing Location Five, Champion still submitted the lowest pricing for the first four locations at $115,800.00.

Champion has worked on similar projects for the Village in the past and staff have been pleased with their performance. Therefore, Village staff recommend awarding this project to Champion Paving Corporation of Hampshire, IL

FINANCIAL IMPACT

The Village’s 2020 budget includes $114,470.00 in the Capital Fund and $32,150.00 in the Airport Fund for this project. The total expense for this project is $115,800.00, which is $27,470.00 under budget in the Capital Fund and $3,350.00 under budget in the Airport Fund.

On February 10, 2020, Public Works received ten sealed bids for the 2020 parking lot replacements project. Champion Paving Corp submitted the lowest bid of the ten. The Village’s 2020 budget includes $114,470.00 in the Capital Fund and $32,150.00 in the Airport Fund for this project. The total expense for this project is $115,800.00, which is $27,470.00 under budget in the Capital Fund and $3,350.00 under budget in the Airport Fund.

CRITERIA:

These rocks are a hazard to spinning propellers on aircraft.

3: A quote was solicited to replace the ramp. $32,150 was the number provided by a reliable vendor the Village has worked with in the past. This project would not be eligible for federal grant reimbursement at this time.

REQUEST FOR BOARD ACTION

MEETING DATE: February 25, 2020
DEPARTMENT: Community Services
SUBJECT: Vehicle Lease Agreement with NISRA

EXECUTIVE SUMMARY

Community Services would like to enter into an agreement with the Northern Illinois Special Recreation Association (NISRA) to enable the Village to lease busses from them on an as-needed basis during calendar year 2020. The agreement requires Village Board approval to indemnify NISRA while we are operating their buses.

When the Village bus is required but not available or additional buses are required, the Village is able to lease an available bus from NISRA due to our participation in the association. We normally only use them about six times a year. We typically pay only for the fuel used. Attached is a copy of the lease agreement for your consideration.

REQUEST FOR BOARD ACTION

MEETING DATE: February 25, 2020
DEPARTMENT: Community Services
SUBJECT: Variations to Sections 16.4, Prohibited Signs, and 16.11, Sign Chart, for 309 North Randall Road

EXECUTIVE SUMMARY

The property owners of 309 North Randall Road request variations to the Zoning Ordinance to allow two signs on the front elevation of the building, one internally illuminated sign, with the company name & logo, and one “halo” sign, in the silhouette of a dog and ball.

The variation to Section 16.4 is required simply because the design is a “halo” sign where the sign has lights between opaque facing and an opaque background. This may potentially change with the revisions to the sign portion of the ordinance, but is currently a prohibited sign.

The variations to Section 16.11 are required because the Zoning Ordinance only permits one sign with a maximum area of 100 square feet. The first sign is an internally illuminated sign of approximately 57 square feet. The second sign is a “halo” sign of approximately 203 square feet. The graphic silhouette of the dog and a ball are designed to draw attention to the business and therefore constitute a sign.

The Planning and Zoning Commission conducted a public hearing on February 17, 2020 for the petitioner’s request. There were no public comments and Commissioners voted 4-0 to recommend approval of all variations as requested.

Requested Action: Three variations to Section 16 of the Zoning Ordinance
- Section 16.4 to allow a sign with lights between opaque letters and an opaque background. The Zoning Ordinance identifies this type of sign is a prohibited sign.
- Section 16.11 to exceed the maximum allowable wall sign size in a B-3 district. The combination of all wall signs on the 81 linear foot frontage of this building is proposed to be 260 square feet. The Zoning Ordinance allows up to 2 square feet per linear foot of building frontage with a maximum of 100 square feet.
- Section 16.11 to allow two signs on the front elevation of this building. The Zoning Ordinance only allows one per elevation.

Owner: TMC Lake in the Hills, LLC

Applicants: Rob Whitehead Sr. and Matt Pyter

Purpose: Allow two signs on the front elevation of the building, one internally illuminated sign with the company name and logo and one “halo” sign in the silhouette of a dog and ball.

Location and Size: 309 N. Randall Road / 1.8 acres

Zoning and Land Use:
- Site: B-3 General Business District
- North: B-3 General Business District
- East: B-3 General Business District
- South: B-3 General Business District
- West: B-3 General Business District
**Background**

The applicants request variations to the Zoning Ordinance to allow construction of two signs on the front elevation of the building. The first is an internally illuminated sign with the company name and logo of approximately 57 square feet. By itself, this sign does not require a variation.

The second is a “halo” sign in the silhouette of a dog and ball of approximately 203 square feet. This measurement uses a box on the perimeter of the sign and does not give any credit for the vacant space inside the silhouette. The three requested variations apply primarily to this sign. The silhouette is considered a sign by the definition found in Section 3 of the Zoning Ordinance:

**Sign:** Any object, device, surface, display, structure, fabric or painting used for identification, description, illustration, announcement, declaration or display either illuminated or non-illuminated located inside or outside an establishment used to advertise, identify, direct or attract attention to an object, person, institution, organization, business, product, service, event or location by way means including words, letters, characters, colors, designs, illumination, images or symbols which are construction of permeant, temporary, solid, flexible or living materials.

The variation to Section 16.4 is required simply because the design is a “halo” sign where sign has lights between opaque facing and an opaque background. This may potentially change with the revisions to the sign portion of the ordinance.

The variations to Section 16.11 are required because the graphic silhouette of the dog and a ball are designed to draw attention to the business and therefore constitute a sign. It can be considered that since the silhouette contains no text or trademarks, it is appropriate to make an exception.

**Standards and Findings of Fact for a Variation**

The Planning and Zoning Commission may recommend and the Board of Trustees shall permit a variation of the provisions of this Zoning Code, as authorized in this Section, only if the evidence, in the judgement of the Village sustains each of the following three conditions:

A. **The property in question cannot yield a reasonable return if permitted to be used only under the conditions allowed by the regulations governing the district in which it is located:**

The applicant indicates the silhouette more of an architectural element than a sign since it has not text.

B. **The plight of the owner is due to unique circumstances; and**

The applicant indicates that other municipalities would not consider the silhouette as a sign.

C. **The variation, if granted, will not alter the essential character of the locality.**

The applicant indicates this will not alter the essential character of the locality.

For the purpose of supplementing the above standards, the Village, in making this determination whenever there are practical difficulties or particular hardship, also shall take into consideration the extent to which the following facts, favorable to the applicant, have been established by the evidence:
D. That the particular physical surroundings, shape or topographical conditions of the specific property involved would bring a particular hardship upon the owner as distinguished from a mere inconvenience if the strict letter of the regulation were to be carried out;

The applicant indicates the hardship created is the consideration of the silhouette as a sign.

E. That the conditions upon which the petition for variation is based would not be applicable generally to other property within the same zoning classification;

The applicant indicates the silhouette is particular to their specific business.

F. That the purpose of the variation is not based exclusively upon a desire to make more money out of the property;

The applicant indicates the silhouette helps people identify the service provided.

G. That the alleged difficulty or hardship has not been created by any person presently having interest in the property;

The applicant indicates the hardship created is the consideration of the silhouette as a sign.

H. That the granting of the variation will not be detrimental to the public welfare or injurious to other property or improvements in the neighborhood in which the property is located; or

The applicant indicates it will not be detrimental to the public welfare or injurious to other property or improvements in the neighborhood in which the property is located.

I. That the proposed variation will not impair an adequate supply of light and air to adjacent property, or substantially increase the danger of fire, or otherwise endanger the public safety, or substantially diminish or impair property values within the neighborhood.

The applicant indicates this condition will be met.
